Study eligibility is subject to the Study tariffs (on PEC’s Web site at: <http://progress-energy.com/aboutenergy/rates/index.asp#b0>). **Since the Study is limited to 150 participants, all customers submitting a Study application are not guaranteed acceptance into the Study and may not receive the Study’s \$1,000 one-time incentive rebate.** This rebate is only available to customers notified by PEC that they have been selected to participate in the Study and whose solar water heating system has been inspected by and received all applicable permits and approvals from local authorities. **PEC, in its sole absolute discretion, may deny Study participation to any customer to achieve a geographically and demographically diverse population of Study participants.** By submitting a completed Study application, the customer attests that the customer has read and understands the applicable Study tariff requirements, meets the Study’s eligibility requirements and will comply with all Study tariff requirements if selected to participate in the Study. PEC will post on its Web site the physical street addresses where each Study participant’s system is located.
